

Your quick guide to
Street Parking

FREE

1-Hour Parking Zones

The City offers one-hour free parking on **Hay Street** in East Perth and West Perth, and **Royal Street** in East Perth.

A ticket is not required in these zones. The EasyPark App can be used free of charge in the one-hour free parking zones as a reminder for your parking expiry time.

Always refer to street signs for parking conditions.

Parking

The City of Perth has parking conditions and parking laws which aim to improve the safety for all road users and to help keep the City accessible for residents and visitors. The City's Parking Information Officers administer the City of Perth Parking Local Law within the City's jurisdiction by responding to complaints and through regular patrols. Cautions and infringements are issued to vehicles parked in contravention of the local law.

Know your signs

All drivers should familiarise themselves with standard signage used throughout Western Australia.

Parking signs may have multiple panels to communicate a range of parking conditions.

Bay markings and messages on ticket machines are a secondary precaution only.

Signs should be read from top to bottom and left to right noting the direction of the arrows applicable to where your vehicle is parked.

Always check that another condition, such as;

‘Clearway Zone 4.15 – 6pm Mon to Fri’ or;

‘Taxi Zone 6pm Fri - 8am Sat, 6pm Sat - 8am Sun’.

will not come into effect during the time you intend to park.

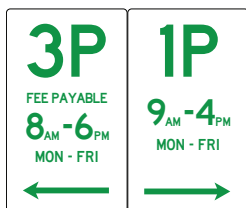

Time limits

You can only park for the time limit shown on the sign, the time starts as soon as you stop in the parking bay.

For example;

- 3P means you can park up to a maximum of 3 hours, and;
- 1P means you can park up to a maximum of 1 hour.

Making additional payments i.e. re-feeding the parking meter or moving to a nearby bay will not reset the time limit.

Outside the days and times stipulated on the sign, you may park without conditions, unless there is another sign with additional conditions indicating otherwise.

For further information regarding time restricted parking refer to “Frequently Used Signs” on our website visitperth.com/getting-around/parking

Fee payable

If a sign states ‘fee payable’, you must either:

- Start a parking session in the EasyPark App for a ‘virtual’ ticket, OR
- Pay for parking at a parking meter for the required duration. Our parking meters are ticketless, there’s no need to display a ticket on your vehicle dashboard.

During the days and times specified on the signs, making sure to abide by the time limit.

For example;

- This sign indicates there is a maximum 2-hour time limit where you pay for parking Monday to Saturday between 8am and 6pm.
- On Sunday, you can park for free as there is no fee payable, however you must abide by the 2-hour time limit.

Parking Meters

The City has upgraded our parking meters to ticketless pay-by-plate technology, making your experience faster, smart and easier.

How to use the meter:

- Enter your vehicle licence plate number at the meter.
- Select the amount of time you intend to park, within that zone's time limit, by moving the slider on the screen.
- Pay for your parking by either tapping your smart device, or using your debit or credit card.
- E-receipts can be obtained at time of purchase by scanning the QR code on the meter screen or by downloading a copy from myparkingticket.com.au

Since our parking meters are ticketless, there's no need to display a ticket on your vehicle dashboard.

The majority of our new parking meters are cashless, with coin-accepting meters located near hospitals.

Clearway zones

Clearways are used to improve traffic flow and illegally parked vehicles may be infringed and towed at the owners expense. Clearways operate during peak times.

During clearway you cannot stop for any reason or any length of time.

• Clearway vehicle recovery

If your vehicle has been towed from a clearway and you are seeking its recovery, please call 138 138 (Main Roads WA).

ACROD parking

Accessible parking spaces are provided to help people with limited mobility move in and out of their vehicles. Motorists are not permitted to stop in these spaces without displaying a valid Australian Disability Parking Scheme permit (ACROD permit) at all times.

For example;

- This sign means for holders of a valid ACROD permit there is a maximum 1-hour time limit Monday to Friday between 8am and 6pm. Parking is free of charge.
- Outside these times holders of a valid ACROD permit can park without conditions.

Concessions for ACROD Permit Holders

For further information regarding ACROD parking, including on-street parking concessions available for holders of an ACROD permit please refer to our website visitperth.com.au/getting-around/parking

Parking concessions for holders of an ACROD permit are also available in City of Perth Parking car parks.. For further details please refer to our website cityofperthparking.com.au/disability-parking

Loading zones

Only commercial loading vehicles defined under the City's Parking Local Law can use loading zones when picking up or dropping off goods.

Taxis, buses, trades, repair/service vehicles, on-demand vehicles or regular passenger vehicles cannot stop in a loading zone, even if loading or unloading.

The loading zone is in operation during the times shown on the sign. Outside of those times, any vehicle can park with no conditions, unless there are other signs stating you cannot.

Refer to our website for further clarification of a commercial loading vehicle.

visitperth.com.au/getting-around/parking

No stopping

No stopping signs mean you cannot stop for any reason or any length of time – even to quickly drop off passengers, with hazard lights on, with the engine running or with the driver still inside.

These signs are used to maintain safety, ensure traffic flow, provide turning room or restrict parking to authorised or specific vehicles and/or persons.

Permit excepted parking areas for residents

You can only park in a permit excepted parking area if you correctly display the permit specified on the sign.

For example;

- If you correctly display a valid Area 1 Resident Parking Permit, you can only park in an area that states Area 1 on the sign.

Taxi zones

Taxi zones are reserved for the exclusive use of taxis. Other vehicles including on-demand vehicles cannot stop in a taxi zone, even for a short period of time.

For a full list of frequently used signs in the City please refer to our website visitperth.com.au/getting-around/parking

Motorcycle parking

A motorcycle or scooter is permitted to park in motorcycle parking areas marked with 'M/C' stencilled on the bay surface.

Motorcycles are not permitted to park on the footpath or in regular bays which are specifically marked for vehicles i.e. cars, trucks. Parking in on-street motorcycles bays is free of charge for motorcycles. Time limits may still apply, check signage for conditions.

Parking on public holidays

Some parking signs do not apply on a public holiday, if they don't apply it means you can park for free and for as long as you require.

A parking sign with any day of the week listed on it does not apply on a public holiday, for example, conditions that apply 'Mon-Fri' or 'Sat' or 'Sun'.

A parking sign without any days of the week listed on it or a condition which applies at all times, is applicable on public holidays.

For full description please refer to the City's website visitperth.com.au/getting-around/parking

Parking offences

Please refer to the City of Perth Parking Local Law for the full list of prescribed offences.

perth.wa.gov.au/local-laws

Infringements

If you received an infringement notice from the City of Perth, please follow the instructions printed on the back of the infringement notice.

Telephone enquiries can be made between 8.30am and 5.00pm Monday to Friday on **1300 366 461**.

perth.wa.gov.au/forms-and-payments

Parking regulations to be aware of that do not require a sign

Stopping on a footpath

You cannot stop on a footpath or pedestrian refuge for any reason or length of time even with hazard lights or the engine on.

Stopped on a reserve

The City's parks, gardens and reserves are not spaces where vehicles are permitted to park.

Stopping on a verge

Parking is not permitted on verges. However, where there are no signs that prohibit verge parking, with the adjacent resident's permission vehicles can park.

Residents can contact the City to report vehicles that have parked on their adjacent verge without permission.

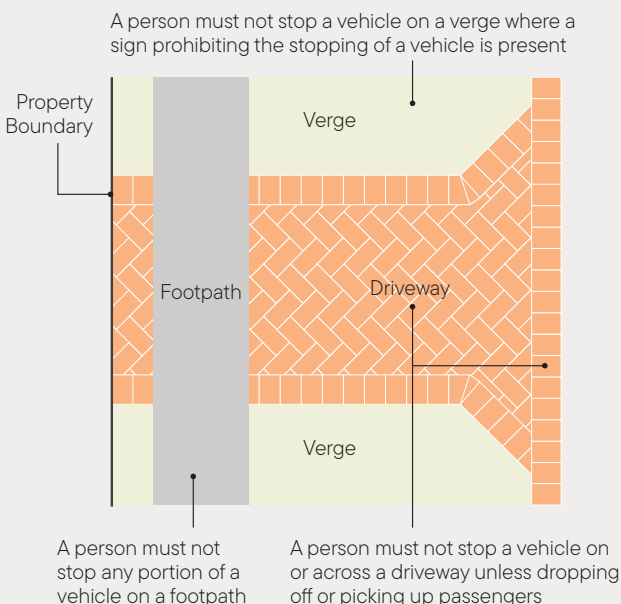

To report a vehicle parking without permission, contact Parking Services on 08 9461 3888, Monday to Saturday 7am to 9pm and Sunday 8am to 5pm.

Stopping on or across a driveway

Obstructing access to a driveway poses a risk in the event of an emergency, you cannot leave your vehicle unattended or stop for longer than two minutes when dropping off or picking up passengers.

Stopped against the flow of traffic

You must park facing the same direction as the moving traffic. When parking in a two-way street you must park close to or parallel with the left boundary of the street. Unless signs indicate otherwise you may park on either side of the street in a one-way street.

Areas you cannot stop a vehicle

There are a number of places you must not stop a vehicle unless a sign allows you to stop. Stopping in these areas can be dangerous to the driver and passengers of that vehicle, to other vehicles or to pedestrians, these are areas such as;

- In intersections or within 10 metres of an intersection that is not controlled by traffic lights; or within 20 metres of an intersection that is controlled by traffic lights.
- Between another stopped vehicle and the centre of the road.
- Within 20 metres of the approach side and 10 metres of the leaving side of a bus zone, pedestrian crossing or railway level crossing.
- Within 10 metres of the approach side and 3 metres of the leaving side of a pedestrian crossing that is not at an intersection.
- Within the head of a cul-de-sac.
- Less than 1.2 metres from another parked vehicle in unmarked parking areas.

Parking meter faults

If the parking meter isn't accepting one type of payment another method must be used to pay for parking. For example, if the credit card payment facility is offline, cash or EasyPark must be used where available.

If there is a fault with the parking meter, please contact our parking meter maintenance service provider,

Duncan Solutions;

- Telephone: **1800 87 603**

Illegally parked vehicles

We patrol daily to encourage compliance with parking conditions and fair access to parking for as many drivers as possible.

For urgent matters, for example, where a vehicle is blocking your driveway, please call 08 9461 3888 to report it and a parking officer will attend as soon as possible.

For full details regarding parking rules and regulations we recommend you refer to the City's website [visitperth.com.au/getting-around/parking](https://www.visitperth.com.au/getting-around/parking)

How to avoid a parking infringement

Think about your needs and find a suitable parking space to meet them. A parking infringement can be avoided if you:

- Park your vehicle in an appropriate bay e.g. it would not be appropriate to park in a 15 minute parking bay to attend a job interview or medical appointment.
- Make sure you take the time to read the parking signs to ensure the day and time you wish to park is lawful. Always check that another condition, such as 'Clearway zone 4.15 – 6pm Mon to Fri' or 'Taxi zone other times', will not come into effect during the time you intend to park.
- Make sure there is enough time for you to do what you need to do and return to your vehicle before your parking expires.
- Consider parking in car parks where you can pay when you leave, this is ideal when you are unsure of how much parking time is required, therefore you only pay for the time you park. Refer to the City's car park website for further assistance [cityofperthparking.com.au](https://www.cityofperthparking.com.au)
- Ensure you have parked your vehicle within the lines or area permitted.
- Ensure you have started a valid parking session at the parking meter or on the EasyPark App before leaving your vehicle.
- If you are unsure whether you are allowed to park in an area or not then do not. Find somewhere that you know is appropriate for your needs.

Parking in the
City of Perth is
getting easier with
the award-winning
easypark App

easypark Parking Payment App

EasyPark is an App that allows drivers to pay for their parking using their mobile device. It can be used to pay for parking or manage a free parking session for all on-street parking across the City.

EasyPark offers an alternative form of payment which means you do not need to use a parking meter. A parking session can be started or stopped from the comfort of your vehicle or whilst walking to your destination. There is no minimum payment required and you will only pay for the time you use, you can stop a parking session at any time.

In-App features include electronic receipts, parking transaction history, and expiry reminders.

The EasyPark App charges an additional service fee for users (no charge to manage a free parking session), this fee goes to EasyPark not the City of Perth. Drivers who do not want to use the App can continue to pay for parking at the parking meter.

- Visit the App Store or Google Play Store to download the EasyPark App
- Register your details with EasyPark
- Start Parking
- Remember to end your parking session to ensure you only pay for the time you use

More Information

Always refer to parking signs for conditions and only park for the maximum time shown on the parking signs.

For more information i.e. service fee details, business accounts or to download the App please visit the App Store or Google Play Store, or contact EasyPark directly on 1300 734 070.

The EasyPark App is also available in select City of Perth Parking car parks, visit cityofperthparking.com.au for information.

Information contained in this guide is current as at June 2024 and is subject to change without notice.
